

KEY INVESTOR INFORMATION

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Moderate Fund (the "Sub-Fund") is a Sub-Fund of Mediolanum Portfolio Fund (the "Fund")

Moderate SH Class A Units ("SHA Class") - ISIN: IE00B05MSF19

Mediolanum International Funds Limited (part of the Mediolanum Banking Group) is the Manager of the Fund.

Objectives and Investment Policy

- The Sub-Fund's objective is to achieve medium long term capital growth.
- The Sub-Fund invests in Mediolanum Group funds which are selected following Investment Manager evaluation of: investment team strength, underlying investment process quality and opportunity for future capital growth.
- Said funds invest in global bonds (issued by companies or governments) and equities (listed shares) in developed markets only.
- The bonds invested in will be rated above investment grade. Investment grade bonds have a rating of BBB- (Standard & Poor's)/Baa3 (Moody's) or better.
- The Sub-Fund may use financial derivative instruments (FDIs) whose performance is linked to that of underlying security(s) or asset class(es).
- The Investment Manager has discretion in managing the investments of the Sub-Fund.
- The Sub-Fund is appropriate for investors with a medium-long term investment horizon.
- FDIs are used to remove the impact of exchange rate movements (hedging) which may affect the value of this Class of Units.
- All income and gains generated by this class of units will be reinvested. No dividends will be paid.
- Units can be bought or sold on any business day from the Fund's Administrator.
- Please refer to the Prospectus and Sub-Fund Information Card for more detailed information.

Risk and Reward Profile

- The risk category is based on historical data and may not be a reliable indication for the future.
- It is not guaranteed and may change over time.
- The lowest category does not mean 'risk free' investment.
- The Sub-Fund is classified in the risk category above due to the nature of its investments. The risk level is measured by the volatility of the Sub-Fund's past returns (or from the past returns of a suitable model portfolio if a full 5 year history is unavailable).

The following risks are considered material and may not be fully captured by the risk and reward indicator:

- Credit Risk - The issuer of a fixed income security held within the Sub-Fund may not be able to meet its obligations, even partially, to the Sub-Fund. Downgrades of an issue or issuer credit rating may lead to a loss in the value of bonds.
- Counterparty Risk - The risk that a counterparty will not fulfil their contractual obligations resulting in a potential loss to the Sub-Fund.
- Financial Derivative Risk - FDI values may rise and fall at a greater rate than underlying securities or instruments. Some derivatives may result in gains or losses that are greater than the original amount invested.

A complete description of risk factors is set out in the Prospectus of the Fund in the section entitled 'Risk Factors'.
