You are about to purchase a product that is not simple and may be difficult to understand.

What is this product?

- **Type:** The product is a Sub-fund of Best Brands (the Fund), an open-ended umbrella Unit Trust established by Mediolanum International Funds Limited as a UCITS (Undertakings for Collective Investment in Transferable Securities) pursuant to the provisions of the UCITS Regulations and governed by Irish law.
- **Term:** This is an open ended fund with no maturity date. In certain circumstances, as described in the Fund prospectus, the Sub-Fund may be unilaterally terminated following written notice to unitholders subject to compliance with the Fund prospectus and applicable regulation.
- **Objectives:**
 - The Sub-Fund's objective is to achieve long term capital growth.
 - The Sub-Fund invests primarily in global (including emerging market) equities (listed shares) and equity related securities either directly and/or indirectly (by investing in funds and/or financial derivative instruments (FDIs)).
 - The Sub-Fund will seek to achieve its investment objective by primarily taking exposures to "sustainable investments" and primarily investing in companies that in the Manager's opinion contribute to the transition to clean energy (energy that is generated from zero emissions sources and does not pollute the atmosphere when used). "Sustainable investments" are investments in companies which, in the Manager's opinion, contribute to an environmental or social objective (provided that such investments do not significantly harm any of those objectives and that the investee companies follow good governance practices).
 - The Sub-Fund may also invest in companies that are active in the process of energy use efficiency and reduction through facilitating more responsible consumption including companies involved in building insulation, smart metering, and battery storage solutions.
 - The Sub-Fund will invest in and/or take its exposures to the asset classes and instruments outlined below and the strategies outlined herein by employing a multi-manager approach whereby the Sub-Fund's assets may be allocated to one or more third-party asset management groups that are considered by the Manager to be leading managers in their respective fields.
 - The Sub-Fund invests in funds which are selected following Manager evaluation of: investment team strength, underlying investment process quality and opportunity for future capital growth.
 - The Sub-Fund may use financial derivative instruments (FDIs) whose performance is linked to that of underlying security(s) or asset class(es). Their use may be for efficient portfolio management, hedging and/or direct investment purposes.
 - The Sub-Fund may enter into securities lending transactions.
 - The Sub-Fund is actively managed (meaning that the Manager has full discretion over the composition of the Sub-Fund's portfolio of assets) and is not managed with reference to any benchmark.
 - The Manager has flexibility to change the Sub-Fund's asset allocation at any time and has discretion to select investments within each asset class.
 - The Sub-Fund is compatible with investors that can bear and/or afford to fully or partially lose the capital invested and are comfortable with no capital guarantee.
 - FDIs are used to remove the impact of exchange rate movement (hedging) which may affect the value of this Class of Unit.
 - Income and gains generated by the unit class will be reinvested. No dividend will be paid.
 - Units can be bought or sold on any business day from the Fund's Administrator. Please refer to the Prospectus and Sub-Fund Information Cards, in the sections titled 'Investment Objectives and Policies' for more detailed information.
- **Intended retail investor:** This investment product has been developed for distribution in Europe and intended for retail investors (including those with a basic knowledge of financial instruments) who can accept the risk noted in the Risk Indicator section.

	If you exit after 1 year	If you exit after 5 years	If you exit after 10 years
Total costs	€ 62	€ 692	€ 2,968
Annual cost impact (*)	6.4%	4.2% each year	4.1% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 14.7% before costs and 10.6% after costs.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	A maximum of 3% of the amount you pay in when entering this investment. This includes the costs of distribution of your product.	€ 30
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	€ 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	2.77% of the value of your investment per year. This is an estimate based on actual costs over the last year.	€ 27
Transaction costs	0.14% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	€ 1
Incidental costs taken under specific conditions		
Performance fees and carried interest	The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years. The Performance Fee applicable to each unit class is equal to a percentage of the amount by which the Net Asset Value (NAV) per unit of each unit class exceeds the Performance Target Value, calculated annually. Please see the Prospectus and relevant Share Class Information Card for more detail.	€ 4

How long should I hold it and can I take money out early?

Recommended holding period: 10 years

The recommended holding period (RHP) has been calculated in line with the investment strategy of the Sub-Fund and the timeframe in which it is expected that it will be possible to achieve the investment objective of the Sub-Fund. The investor has the right to totally or partially redeem the contract on any valuation day, collecting the redemption value calculated based on the value of the shares of the Sub-Fund on the date the request is received by the Manager, without any redemption fee being applied. We recommend that you hold the investment at least until the end of the recommended holding period in order to fulfil the objectives of this product. This product may not be suitable for investors who plan to redeem their contract before the end of the recommended holding period. The product does not provide any guarantee of return on the expiration of the recommended time horizon, and any redemption before that date may compromise the investment performance. Please refer to the Prospectus for further details.
